

A top-level accessory chest harness designed to deliver maximum efficiency and performance for SRT maneuvers.

Designed to integrate seamlessly with Tree Access ST and 2021 version of the Tree Access Evo harness. It can also be rigged to other harnesses. Dedicated attachment points for the Turboknee System.

Numerous loops for secondary connections. Provides additional support and load dispersal when used in combination with a sit harness. Padded shoulders for all day comfort.

Padding is color differentiated for left and right.

WARNING: The Tree Access SRT Chest is a climbing aid/accessory harness, it must never be used to for life support or safety functions.
